

WEEKEND OF TRUFFLES .

Montségur sur Lauzon is the capital of "the black gold " from Drome Provençale: the truffle. And winter season is the excellent time to taste this exceptional mushroom. With the WEEKEND OF TRUFFLES, we want to encourage you to really discover the Truffle. In this weekend you are going to look for the truffles yourself!

Saturday morning, you, guided by the owners of the wine property Domaine de Montine and their truffles dog, go into the woods of truffles oaks to look for the black truffle. After this walk, you can buy the truffles which you found. Back at the Domaine, you can have a look in the wine caves and taste the different wines from the Coteaux de Tricastin. After this visit, you can go to the Market of Truffles in Richerenches. You can take the lunch where ever you want, by example in the very beautiful village Grignan, with its splendid Castle. Or, if you want to know even more of truffles, you visit "the House of Truffles" in the nice village Saint Paul 3 Châteaux. At the end of the afternoon, you return at the Auberge for your next step in your trip to discover the Truffle: the diner of Truffles. This diner begins with an Apéritif aux Truffes (did you know this exist ?), after this an Omelette aux Truffes, than a tournedos with a sauce Périgueux (truffle and foie gras), a Brie with truffles and the dessert, also with truffles, but this time they are made of black chocolate. The diner is accompanied with the good wines from the Coteaux de Tricastin. Sunday morning, after the breakfast, you go back home. At your way home you can visit the Market of Truffles in Saint Paul 3 Châteaux. After a weekend like this, you will be a real expert of Truffles!
